Reasons for Allowance

1. Claims 1-16, 18-34, 36-42, 44-52, 54, 73-76 and 78 will be allowed.
2. The following is an examiner's statement of reasons for allowance.

The prior art references most closely resembling the applications claimed invention are Suarez (U.S. 5,790,789), and Berg et al (U.S. 5,999,911).

First Suarez discloses exchanging information and data between the computer. However Suarez fails to disclose, "wherein the workflow comprises an XML string having a plurality of defined workflows and a set of categorization rules that map a detected event to the defined workflows" (Claims 1,19,37,73).

Second Berg discloses a workflow, which includes a number of steps having encapsulation and dependency relationships. However Berg fails to disclose, wherein the workflow comprises an XML string having a plurality of defined workflows and a set of categorization rules that map a detected event to the defined workflows" (Claims 1,19,37,73).

In summary, the Examiner submits that there is no motivation to combine the aforementioned references; therefore, claims 1-16, 18-34, 36-42, 44-52, 54, 73-76 and 78 have been deemed allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
